

MiniVan/suv/mini truck

The rules are pretty basic for this class!! This class is meant to be a quick and easy build!! A build where someone don't have to put weeks into putting it together to go out and have some fun!! If it don't say you can do it in the rules you chances are you cant!! So just because it don't mention it in the rules don't mean go ahead anyway and do it. If you have a question please call or message first!!

These are guidelines to follow. We will use our experience and discretion to keep all cars on a level playing field. Not everybody builds the same but any deliberate breaking of rules or pushing of the rules will just get your car inspected harder!!

1. Must be powered by four or six cylinder engine
2. No fullsize trucks, suv, or vans will be allowed.
3. MANDATORY! All cars must have a cage. Bar behind seat minimum. Must be thick walled pipe or tube. No exhaust tubing or thinner material. Safety is priority. 4pt cage is recommended
4. Stock gas tank MUST be removed. A METAL BOAT TANK OR HOMEMADE METAL TANK must be mounted in rear seat area and bolted down with metal straps. NO PLASTIC TANKS!!!
5. Battery and gas tank must be tight when coming through inspection line or you won't be inspected.
6. All lines under car must be steel lines or if running rubber lines they must be inside of the car.
7. All glass, side windows, rear windows, headlights and taillights, must be removed before reaching racetrack. Rolling down windows is not permitted. Remove all glass mirrors and plastic. Remove all decking in wagons. Vehicles must be swept clean of all debris. Rear seat of sedan must be removed, top and bottom. On station wagons all seats and decking must be removed. Station wagons must be emptied to floorboards. All cars must be swept clean, both drivers compartment and trunk. No spare tires, broken glass, or trash, etc., allowed in cars.

8. Cars must have a seatbelt and working brakes. MANDATORY!!
9. You can carry a fire extinguisher, but it must be mounted securely and free of movement.
10. Windshield area must have one wire or up to 3/8 chain, 3" wide strap or 2"x2" angle iron for drivers protection. Maximum of two is permitted.
11. Hoods must have a 12x12 hole in them in case of fires.
12. Hoods and Trunks can have 4 places of number 9 wire to hold shut max.
13. Doors can have two spots per vertical seam of wire or 3/8 chain or 12" of weld. Drivers door can be welded solid
14. You can swap stock bumper with automotive type bumper. If you don't have automotive bumper you can have a aftermarket replica or make your own. No bumper can have a extreme point on them. Contour of bumper must be a 74 chevy front in a aftermarket or loaded form. If stock you can run a Chrysler pointed not loaded.
15. You are allowed to have any tire. weld in center in rims so can bolt multiple style rims on car or ok. No outer bead locks or full rim guards. You can have up to a 3" lip stiffener. You may also run solid forklift tires on rear of vehicle if you like.
16. All suspension components must be stock or oem replacement for that vehicle. No built struts or homemade tie rods.
17. No rust repair on frame or body. If you have a rusty car you should have picked a different car to start off with.
18. Will allow people to swap exhaust with aftermarket headers. Can have aftermarket, gas, brake pedals, shifters and steering columns.

This is meant to be easy and fun build for people who don't want to spend a lot of time and money to compete. Like stated before if it don't say it in the rules the answer is probably no!! Questions call/text Jeremy 815-291-4332
